Creative Custom Ceremonies For All Occasions

Jumping the Broom

There are many different versions of this ritual which involves the couple jumping over the broom. Essentially, the jumping of the broom is a symbol of sweeping away of the old and welcoming the new, or a symbol of a new beginning.

Jumping the Broom #1

(Officiant holds the broom in front of the couple, who jump over it.)

By jumping the broom together, you have proven that you can work as a single mind and spirit.

Jumping the Broom #2

This will be your first act of working together as Husband and Wife. May the broom sweep away all ties with the old to make way for new and wonderful things to come.

(Officiant leads to couple to the broom and they jump over it together)
